Subject: Re: Oude Molen Precinct Project: Notice for comment in terms of Section 38 of the National Heritage Resources Act: Revised Heritage Impact Assessment for Oude Molen Precinct

Good day

Please will you reconsider the request for extension, considering that the link <https://www.westerncape.gov.za/infrastructure/oude-molen-precinct-omp> has been not functioning several times when I visited it .

It is working now, however the fact of it being down has reduced the time the public have to view the data and make comment.

Also, I doubt that any review of the submissions, nor is any decision making going to occur over that holiday period. So there is no reasonable basis for have such a short public commenting period.

regards
Ruth Howard

Dear I&AP

Thank you for your email.

We have noted your request, which has been considered. Most of the documents released for viewing and comment as part of the Revised HIA process have been part of the process and public domain since the release of the draft HIA, September 2024 and the Final HIA March 2025. We recommend that you consider the **'Response to HWC IACOM Further Requirements'** document that provides responses to the IACOM request for further requirements and any changes that may have been made in the Revised HIA; the refined **Precinct Plan, and Landscape Plan** to aid the review of the information/reports by focusing on the main reports related to revisions to be commented on and for HWC IACOM consideration and decision.

As such, the request for extension of time is not granted.

Kind Regards / Vriendelike Groete
