Subject: Oude Molen development NO!!!

You don't often get email from constantinehd55@gmail.com. [Learn why this is important](#)

Good morning.

I've just received the shocking news that Oude Molen Eco Village is to be destroyed, together with several upliftment, care and recreational facilities, also job opportunities and small business ventures.

It is totally unacceptable, fuelled by greed for money by renting/selling houses (maybe but suspect not many), shops and offices. It is not ethical to take all that positive (which is O M Eco Village) away, just to line the pockets of already moneyed/rich companies/individuals.

I move that this idea be vetoed and stopped immediately, in order to save a one-of-a-kind place (OMEV) which is a haven and godsend for countless people of all walks of life. By destroying the village you destroy families, livelihoods and opportunities, so please DO NOT DO THIS!!!

Thank you, Helen Constantine
